Current Employment

September 1990 to date Freelance Sound Operator

Since leaving the BBC I've worked mainly as an Operator in studios, in OB's and on a few dramas/soaps. Duties included fisher boom and fish pole operation, PA and radio mic rigs, rigging of commentary, pitch side and studio positions on sporting events, mic'ing up all sorts of bands and helping rig monitors and FOH. I've also done some PSC and mixed on a few shows such as Sky News and The Big Breakfast. These also incorporated comm's/tape n' grams. I have also supervised and helped run a small department.

Other shows I've worked on have been the odd pop concert, TV awards ceremony and rock/pop festivals i.e. V Festival, Party in the Park Live 8, Latitude Festival, Soap awards, MOBO awards, NTA Awards etc., doing anything from radio mics/stage mics, to PA feeds and splits.

I've worked with quite a few bands on Top Of The Pops and Later With Jools, in recent years, doing the band's stage rigs and helping with their monitor rigs etc, IEM's and supervising their sound checks, also on many occasions running the studio floor as well and become acquainted with artists such as U2, REM, Maroon 5, Stereophonics, Robbie Williams, Kasabian, Mumford and Sons, Laura Marling, Steve Earle, The Waterboys, Green Day, Coldplay, Snow Patrol, Eminem, 50 Cent, Kanye West, Stevie Wonder, Franz Ferdinand, The Killers, Kylie Minogue, Britney Spears, Muse, Destiny's Child, Victoria Beckham, Kings of Leon, Will Young, George Michael, Michael McDonald, Meat Loaf, Foo Fighters, amongst many others, and have got to know some of their crews, sound guys and management along the way, learning their set ups, technical preferences/ requirements, quirks and temperaments!
